Dear East Bay Neighbors,

Happy New Year! The officers and Board members of the Wayne County East Bay Improvement Association gathered last week to discuss the future of our beautiful Bay. We worked on formulating a plan for the upkeep and maintenance of the Bay – especially the channel and jetty – in response to some concerns we received from the DEC with respect to long term care of the jetty. In order to address this issue, we recognize that we need the help of others who love East Bay.

We are hoping that some of you might be willing to step forward and assist us in three areas we determined would help preserve the integrity of the jetty and the Bay itself. We would like to form the following committees:

1. Social Media – Maintain and update our web site and Next Door and potentially establish and maintain a Facebook page.
2. Research Grants – there are many out there but a team would make researching them much easier. These people do not necessarily need to write the grants - unless they desire to do that – but to help find grants we might qualify for.
3. A political liaison committee. These folks would work to establish political allies – make local politicians aware of us and the needs of our community. Our President and VP – Dave Dailey and Ray Seigfred – have begun working with Dave Fantuzzo (Supervisor) and Roger Gallant (Zoning and Planning Department) in Huron. There are many other political officials in the area whom a note or phone call, would have us on their radar.

If you think you could help protect and improve East Bay in any of these ways, please contact one of our officers (information below). Thank-you for considering this request. We hope to hear from some of our fellow Bay friends. Keep warm with sweet memories of East Bay!

Sincerely,
Wanda Klem
