WEB SITE INFORMATION

Visit our web site – Jim Pierce and Tammy Staubing are administrators. To see general Bay information visit the site. To get more detailed Association information, apply on the Site. **It is in the plans to discontinue emailed and mailed newsletters. The Newsletter is always available on the website!** If you have questions or trouble with the App, contact Jim@jpiercecisa@gmail.com OR wcebia@gmail.com

Safe Harbor = Vice President Ray Seigfred

* November 5 - Water Quality / Weed Committee (Dave D., Jim Klem, Jeff Klem, Jim Pierce, Ray) meeting to discuss weed treatment options, timing, chemicals, etc. Also discussed the weed harvesting program and the need for our Association to stay engaged with the Town and Soil & Water to drive improvements. Good meeting.

*November 2025 - received notice that a 3 year study of nutrients and sediment activity has been funded. Proof Projects and UPenn folks will be around East Bay to better understand what our Association does to help keep our Bay healthy and ultimately make suggestions for improvements (ie: dredging, channel location, invasives, nutrients impact from farms, etc.). Tentatively, we will have reps from Proof Projects at our May meeting for Q&A, etc. This all came to be with the help of Huron Supervisor Dave Fantouzzo.

*December 2025 - pursuing a \$250,000 grant opportunity with NYS DEC targeting invasive weeds, we worked with Port Bay Improvement Association and the Town to submit a funding application. Formal application submitted by the Town on Dec. 16, 2025. The application is requesting two years funding of our (East Bay) annual weed treatment and the purchase of a mini weed harvester to be shared between Port Bay and East Bay. This machine is designed to harvest weeds in shallower water, around docks, etc

. January 2026 - NYS DEC announces a Lake Ontario Sediment Source Study. The DEC has marked / painted rocks and implanted trackers in smaller rocks to be able to track their movement. These studies are being done on some bluffs just east of us. Again, the idea is to track sediment movement in the lake to better understand the effect on erosion, the barrier bars, etc

. February 2026 - another grant opportunity came up from NY Sea Grant. This is a small grant program with a max payout of \$40,000 per award. I found the grant criteria could benefit East Bay, so on Feb. 11, 2026 I did submit a formal application. My application / idea was to continue to make improvements along our barrier bar. Move excess material to low or

narrow parts of the barrier bar in an attempt to stabilize and protect it. Grant awards are to be announced in late May 2026. We'll see..

Message from the Huron Bicentennial

Committee As part of the commemorations of Huron's 200th and the Nation's 250th, the Huron Bicentennial Committee has partnered with Save Our Sodus and Oak Park Marina to have a "People-Powered Boat Race" to be held at Oak Park Marina on Sodus Bay, Saturday, July 11, 2026. More information to follow. If you are interested in helping plan or assist with any of the events the committee has planned,, check more detail on our web site or contact Wanda Klem for information.

Membership is as of March 14, 2026., Please use the attached membership form to update your membership if you do not see your name here. Share a form with a neighbor if they are not listed .

These 2 pictures were taken a day apart on the East side between Klem's and Groeschel's. As of the 14th, there is just a small 2 foot drift in front of the Groeschel's door!

February 7th

February 8th

All pictures in this edition of our newsletter are compliments of Kevin Elphink – the sole year round resident on the East side Cline Shore! Thanks, Kevin!!
